

# More Than This

Wulf

Down by the river and it seems so right  
Down on the ground and the view was bright  
Lying on the grass as we watch the sky  
Clouds are passing by, reflecting in your eyes

I still feel your heartbeat  
Still feel your heart  
If you feel my heartbeat

We could be more than this  
Should've done more than kiss  
From the daylight to night sky  
It's bigger than life  
You and I  
We could be more than this  
We could be more than this

I ask myself repeatedly  
What's this feeling you're giving me  
But the answers are already known  
Can we let this feeling grow  
Can we let this feeling grow

I still feel your heartbeat  
Still feel your heart  
If you feel my heartbeat

We could be more than this  
Should've done more than kiss  
From the daylight to night sky  
It's bigger than life  
You and I  
We could be more than this  
We could be more

Why  
Is it every time we dance  
Is it every time we dance  
My feet just won't get tired  
Why  
Is it every time we dance  
Is it every time we dance  
My feet just won't get tired

We could be more than this  
Should've done more than kiss  
From the daylight to night sky  
It's bigger than life  
You and I  
We could be more than this  
We could be more than this
