

No More Rain

Wulf

Remember when you told me we would never run away if only one of us
Is walking in the rain, waiting for a change, longing for the sun
Remember when you told me you will always be the one to hold my hand

No I didn't forget it no
All the things you used to say

You are trying oh so hard to keep that smile upon your face
And even in the way you walk I can tell inside you something changed
Remember when you told me you will always be the one to hold my hand

No I didn't forget it no
All the things you used to say
No more rain, no more thunder
When the sky is falling down
I'll be here to keep you safe
No more rain, no more thunder
Let us dance until the morning
Dance the pain away

Follow me into the night
We'll go chasing city lights
I'll be here on your brighter day

No more rain, no more thunder
Let us dance until the morning
Dance the pain away

Remember when you told me you will always be the one to catch my fall
Well I'm falling to the ground tryin' to figure out what it's all about
I went from a life full of friends, to lonely at the top

No I didn't forget it no
All the things you used to say
No more rain, no more thunder
When the sky is falling down
I'll be here to keep you safe
No more rain, no more thunder
Let us dance until the morning
Dance the pain away

Follow me into the night, we'll go chasing city lights
I am here on your brighter day

No more rain, no more thunder
Let us dance until the morning
Dance the pain away

Follow me into the night, we'll go chasing city lights
I am here on your brighter day

No more rain, no more thunder
When the sky is falling down
I'll be here to keep you safe
