

# No Pressure

Wulf

I used to fight between the future and the past  
Searching for the meaning  
Always stressing if tomorrow'll be alright (that's right)  
Overthinking, undefeated

I said ooh, here we go  
Breaking free, so wondering  
I said ooh, moving on  
Time to show that less is more  
Ooh, switch it up  
Black and white, too colorful  
I said ooh, the weight is off  
Of my shoulders now

No pressure here for us  
No worries just because  
We're stressing out too much  
No pressure  
No pressure here for us  
We're caught up in a rush  
Ain't ever good enough  
No pressure

I used to live my life unsure if it was mine  
Ooh, I wasn't what I needed (oh no)  
I had to overcome and give myself some time now  
Make it fun and make it easy

I said ooh, here we go  
Breaking free, so wondering  
I said ooh, moving on  
Time to show that less is more  
Ooh, switch it up  
Black and white, too colorful  
I said ooh, the weight is off  
Of my shoulders now

No pressure here for us  
No worries just because  
We're stressing out too much  
No pressure  
No pressure here for us  
We're caught up in a rush  
Ain't ever good enough  
No pressure

Now we up here, make it disappear  
All of our fear

No pressure here for us  
No worries just because  
We're stressing out too much  
No pressure  
No pressure here for us  
We're caught up in a rush (no)  
Ain't ever good enough  
No pressure

Ain't ever good enough  
No pressure
