

# Now Or Never

Wulf

Never, now or never  
Never, now or never

We've been down in the mines, digging deep for gold  
Almost losing our minds, running out of hope  
Yeah, we've been through a lot, all these sticks and stones  
Always chasing the sun through the darkest holes

Roaring thunder, walls are crumbling in  
Never give up, no  
We will never ever give up, no  
Ground is shaking, water's coming in  
Never give up, no

We won't let 'em break us  
We're not gonna give up  
Ain't nobody strong enough to crush our dreams  
We're in this together  
Gotta make it better, mm  
We're not gonna last forever  
Babe, it's now or never

Never, now or never  
Never, now or never  
Never, now or never  
We're not gonna last forever  
Babe, it's now or never

We keep holding our breath, looking out for a sign  
Ain't no sleep, ain't no rest for a long, long time  
Feels like a knife in the back, cutting down our spine  
Sharing ground with the rats, crawling to the light

Roaring thunder, walls are crumbling in  
Never give up, no

We won't let 'em break us  
We're not gonna give up  
Ain't nobody strong enough to crush our dreams  
We're in this together  
Gotta make it better, mm  
We're not gonna last forever  
Babe, it's now or never

Never, now or never  
Never, now or never  
Never, now or never  
We're not gonna last forever  
Babe, it's now or never
