

One Step

Wulf

Lost on an island
Cut from the world
Strong as a lion
Free as a bird

But life is a bastard
And nature is cruel
I'm telling you
Fate is our master
And we are the fools

Singing
Oh, oh, oh, oh, oh, oh, oh, oh, oh
I know the future's out of our control
Singing
Oh, oh, oh, oh, oh, oh, oh, oh, oh
I know the road is long, but don't you know

You just gotta take one step
You just gotta take one breath?
You don't gotta move mountains
We can find a way around them

You just gotta take one step
Tell me that you got one left
Every one you take is one less
You just gotta take one step
One step

Waves in an ocean
Go where they might
Back to the lowlands
Memories bright

Oh
Faith is your hand
Holding me tight
If you wanna go out of the darkness into the light

You just gotta take one step
You just gotta take one breath
You don't gotta move mountains
We can find a way around them

You just gotta take one step
Tell me that you got one left
Every one you take is one less
You just gotta take one step
One step

Want to make it out there?
Better buckle up
We can make it anywhere
With a little luck
Take a step into the arms of the daylight
Don't you know we're all children of the same sun?
Honestly, it doesn't matter where you came from

You don't need to know a destination

You just gotta take one step
You just gotta take one breath
You don't gotta move mountains
We can find a way around them

You just gotta take one step
You just gotta take one breath
You don't gotta move mountains
We can find a way around them

You just gotta take one step
Tell me that you got one left
Every one you take is one less
You just gotta take one step
One step
