

# Restart

Wulf

Somebody's calling my name  
Right when I thought I was going insane  
It feels like first time in a long time  
First taste of a drink in the sunshine  
Somebody's calling my name

I want it all, I want it all  
I never thought I needed something new so bad  
I want it all, I want you, oh-oh-oh

And it feels like I'm pressing restart, restart  
And it feels like you're rocking my heart, my heart  
Go ahead, baby open it up  
'Cause it feels like I'm pressing restart, restart, restart  
Restart

Somebody's calling my name  
First sight and I knew my life wouldn't be the same  
And it feels like first time in a long time  
I danced in the crowd and I didn't mind  
How we looked, so won't you come and move with me?

I want it all, I want it all  
I never thought I needed something new so bad  
I want it all, I want you, oh-oh-oh

And it feels like I'm pressing restart, restart  
And it feels like you're rocking my heart, my heart  
Go ahead, baby open it up  
'Cause it feels like I'm pressing restart, restart, restart

You throw me a lifeline  
Hold me at the right time  
Let's live this moment in flow motion  
Living on the right side  
Forgetting the dark nights  
Flick it off, turn it up, restart and take it slow

And it feels like I'm pressing restart, restart  
And it feels like you're rocking my heart, my heart  
Go ahead, baby open it up  
'Cause it feels like I'm pressing restart, restart  
And it feels like I'm pressing restart, restart (hey)  
And it feels like you're rocking my heart, my heart (hey)  
Go ahead, baby open it up (hey)  
'Cause it feels like I'm pressing restart, restart
