

# Switching Gears

Wulf

You unfolded my middle finger to the insecurities that chase me  
Down the lows and highs  
A hidden singer with the drumming desire just to be free

I know that it takes long  
I just need that one song  
To get us out of yesterday  
I need you to stay strong  
Promise this won't take long  
And if we turn out not okay

I'll be switching gears  
I trust you do the same  
Looking for tomorrow  
Filling up the hollow  
I'll be switching gears  
Give meaning to my name  
We will find tomorrow  
Filling up the hollow

Switch it up  
Fighting fears, switching gears  
Hopeful smiles, ear to ear  
As we try to hear, melodies in our tears  
They told me ''be square or circle only that way  
You'll turn gold'', but there's no need for change  
Cause I'm okay

I know that it takes long  
I just need that one song  
To get us out of yesterday  
I need you to stay strong  
Promise this won't take long  
And if we turn out not okay

I'll be switching gears  
I'll trust you do the same  
Looking for tomorrow  
Filling up the hollow  
I'll be switching gears  
Give meaning to my name  
We will find tomorrow  
Filling up the hollow

I'll be switching gears  
I'll trust you do the same  
Keep looking for tomorrow  
Filling up the hollow  
I'll be switching gears  
Give meaning to my name  
We will find tomorrow  
Filling up the hollow

Keep switching it up  
No reason to stop  
Filling up the hollow  
Keep switching it up

No reason to stop  
Filling up the hollow

I'll be switching gears  
I'll trust you do the same  
Looking for tomorrow  
Filling up the hollow  
I'll be switching gears  
Give meaning to my name  
We will find tomorrow  
Filling up the hollow
