

With Gold

Wulf

Wouldn't you rather be honest?
'Cause I don't wanna wait
I'm ready to tick all the boxes
We're done here for today
Wouldn't you rather be higher
Than everyone around
You and me
You and me?

Can I go on? Not in this way
We're not gone no, it's never too late
Holding on tight, we don't complain
Set the record straight

We were waiting for the day
To fight away the gray
We color in our fate
With gold
We were waiting for the day
To fight away the gray
We color in our fate
With gold

We were ready, ready, ready
We were ready all along
Working steady, steady, steady
On our own

Isn't it better to honor the voice inside your heart?
Isn't it always the hardest to be brave here at the start?
And if you ever feel lonely just know that it comes down
To you and me, you and me

Can I go on? Not in this way
We're not gone no, it's never too late
Holding on tight, we don't complain
Set the record straight

We were waiting for the day
To fight away the gray
We color in our fate
With gold
We were waiting for the day
To fight away the gray
We color in our fate
We color in our fate
With gold, gold
Gold, gold

(We were waiting for the day)
Gold, gold
(We were waiting for the day)
Gold, gold
