

Xmas Time

Wulf

Never seen so many faces
Plowing through the snow
Finally we're going places
Can you feel the glow?

There's light in the dark, wherever you are
Even when the days grow cold
Seeing all the happy faces, they're everywhere I go
There's never been a longer year

Raise your glass to better times
Make a wish and light the fire
Break the bread, hear the chimes
It's Christmas time
With the ones we love, with the ones we love
Keep 'em in your heart
Keep 'em in your heart

Now it's time to set the table
For family and friends
So many reason to be grateful
The sun will rise again

There's never been a longer year

Raise your glass to better times
Make a wish and light the fire
Break the bread, hear the chimes
It's Christmas time
With the ones we love, with the ones we love
Keep 'em in your heart
Keep 'em in your heart

With the ones we love
Keep 'em in your heart
All the ones we love
Keep 'em in your heart

So raise your glass to better times
Make a wish, light the fire
Break the bread, hear the chimes
It's Christmas time

Raise your glass to better times
Make a wish and light the fire
Break the bread, hear the chimes
It's Christmas time
With the ones we love, with the ones we love
Keep 'em in your heart
Keep 'em in your heart
It's Christmas time
