I don't wanna be remembered  
But I don't wanna be forgot  
I don't wanna be forgot  
And you  
Maybe you're the great pretender  
You get everything you want  
You get everything you want

And do they know the place  
Sunk without a trace  
Any colour that you like  
As long as it's black  
Just as long as it's black

Wait  
There's something I forgot to tell you  
Something I forgot to say  
Something I forgot to say

And do they know the place  
Sunk without a trace  
Any colour that you like  
As long as it's black (yeah)  
Just as long as it's black  
Just as long as it's black  
Just as long as it's black
