

Candy

WurlD

Lay in my bed
Don't sit and just stare
Like we were beyond forever

I can't wait to take it
If you came to give it
Slowly, we rise together

The moment we kissed tonight
We found a place to lose control
Oh, oh, I'll be your favorite person
Using your love for my pain

All I need is
Candy, candy, candy
Oh, oh, you're the sweetest
Candy, candy, candy
Oh, oh, all I need is
Candy, candy, candy

There's a big storm in the making
Your love is the reason
I hold on with no fears
No matter how long it takes, babe

There's no better love
'Cause you were made for me
To lead me to the sun
And I'll be all the light you need

The moment we kissed tonight
We found a place to lose control
Oh, oh, I'll be your favorite person
Using your love for my pain

All I need is
Candy, candy, candy
Oh, oh, you're the sweetest
Candy, candy, candy
Oh, oh, all I need is
Candy, candy, candy
Oh, oh

Oh, you know I believe
You're my destiny
You're all I need
Oh, I know this

I belong to you
You belong to me
We got all we need
I know it's glad to see it

All I need is
Candy, candy, candy
Oh, oh, you're the sweetest
Candy, candy, candy

Oh, oh, all I need is
Candy, candy, candy
Oh, oh, you're the sweetest
Candy, candy, candy
Oh, oh

Oh, you know I believe
You're my destiny
You're all I need

I belong to you
You belong to me
We got all we need
