

# CAN'T COME OUTSIDE

Wurld

I know when you lie  
Feelings that I can't deny  
But you got words for a nigga  
Harsh words for a nigga like me, oh

It's one level  
Baby, you give me one level  
Now you change into new level  
Why you mess with the energy oh?  
Baby, cool off  
If you no dey someone will love you me oh  
If you no dey someone will love you me oh

Baby, you got me  
Waiting on the sun  
You're always in my heart  
Whether you're here or you're not, yeah, yeah, yeah  
My love will be yours, yeah, yeah, yeah  
Remember you told me  
It's easy to fall and be open  
But my love won't let you be broken  
It's all about the communication

Now that we both locked down  
I'm getting so messed up  
Can't go outside, no no  
Can't come outside, no no  
Now that we both locked down  
We getting so messed up  
Can't go outside, no no  
Can't come outside, no no

Enough is enough, I want you to know  
Called to let you know that I need you the most  
Right here, right beside me  
Erase all the silence, I'm over the violence  
You need to know

Baby, I'm closer to losing my head now  
Baby, I'm closer to losing my mind now  
See, I'm alone with all my good intentions  
Whenever you need me, you know where you can find me

Baby, don't come around with the same level  
Baby, you give me one level  
Now you change into new level  
Why you mess with the energy oh?  
Baby, cool off  
If I no dey someone will love you  
If you no dey someone will love you me oh

Baby, you got me  
Waiting on the sun  
You're always in my heart  
Whether you're here or you're not, yeah, yeah, yeah  
My love will be yours, yeah, yeah, yeah  
Remember you told me

It's easy to fall and be open  
But my love won't let you be broken  
It's all about the communication

Now that we both locked down  
I'm getting so messed up  
Can't go outside, no no  
Can't come outside, no no  
Now that we both locked down  
We getting so messed up  
Can't go outside, no no  
Can't come outside, no no
