

Really

So many times that they miss you  
I know I don't call when I want to  
Now you got way bigger issues  
You running around like you single  
Slow down only you do ginger the whole town  
Slow it sometime go out  
Mountain for your back make you run wild  
Slow it sometime  
Time to slow down

So many times we could have been  
You left me so cold  
You know that I need you  
Now I feel so cold  
I gotta get even  
Still I want you close  
Sometimes I need you  
I'd never forget you

But I won't call you anyway  
Nobody wins cause you won't call me anyway  
I won't call you anyway  
Nobody wins cause you won't call me anyway

No, I don't care who you run to  
There's too many options to stress you  
You think say you be my controller  
You say I'll be nothing without you  
Slow down now you are to make me to run wild  
Slow it sometime  
No lie plenty women make me to run wild  
Slow it sometime  
I need to slow down

So many things we could have been  
You left me so cold  
You know that I need you  
Now I feel so cold  
I gotta get even  
Still I want you close  
Sometimes I need you  
I'd never forget you

But I won't call you anyway  
Nobody wins cause you won't call me anyway  
I won't call you anyway  
Nobody wins cause you won't call me anyway  
But I won't call you anyway  
Nobody wins cause you won't call me anyway  
I won't call you anyway  
Nobody wins cause you won't call me anyway
