

Feel Right

Wurld

I will never be there say
Until I see you baby
No matter how far where apart
I am gonna be right where you are

Everybody needs that one that makes you right
Travel all around the world and makes you feel right
I just wanna be right
Make you feel right
Make you feel right

Everybody needs that one that makes you right
Travel all around the world and makes you feel right
I just wanna be right
Make you feel right
Make you feel right
I just wanna be right (I just wanna be right)
Make you feel right
Make you feel right
Make you feel right
Make you feel right
Make you feel right

My life will never be complete
Whether you here at by my side
And if you will ever need a friend
I wil be on my way right on time
For your love baby

Everybody needs that one that makes you right
Travel all around the world and makes you feel right
I just wanna be right
Make you feel right
Make you feel right
I just wanna be right (I just wanna feel right)
Make you feel right
Make you feel right (make you feel right)
Oh oh oh ooh
Make you feel right, make you feel right
Oh oh oh ooh
Make you feel right, make you feel right
Oh oh oh ooh
Make you feel right, make you feel right
Oh oh oh ooh
Make you feel right, make you feel right
Make you feel right, make you feel right
Make you feel right
Ye ye ye

Everybody needs that one that makes you right
Travel all around the world and makes you feel right
I just wanna be right
Make you feel right
Make you feel right

I just wanna be right (I just wanna feel right)
Make you feel right

Make you feel right
