

# GHOST TOWN

Wurld

Losing, never lost sight  
Learning, never lost time  
See an eye for an eye  
Keep you up late at night  
Till you run, run, run

Can't find a way out, way out  
Living in a God's own world  
Where the sinners are winners, winners  
You're only gonna get one chance

So you better hit the bullseye  
Or you gon' end up in a ghost town  
Ghost town  
You end up living in a ghost town  
Ghost town  
You end up living in a ghost town  
Ghost town  
You end up living in a ghost town

See your neighbors winning  
But it brings you down  
Try to chase the fame  
You end up burning out  
Why do someone always try to steal my light?  
Learning from vultures, protect my own  
Dream it, end up chasing it my whole life  
Feel the joy bring the tears  
Down my brown eyes  
Mamas gonna always say a prayer for me  
Pray I make it home alive

Living in a ghost town  
Gotta make it on my own (Gotta make it on my own)  
Living in a ghost town  
Gotta find a new meaning (Gotta find a new meaning)  
Living in a ghost town  
Gotta make it alone  
Living in a ghost town  
The good and bad on my own

I'm on the 405 doing the 95  
Screaming my lung out  
For no reason  
We never learn to die  
Tell me your best lie  
Give me your best time  
You know I need it  
I need to survive  
Keeping my head in the light  
Keeping my spirit alive to be a winner  
But when you won so much  
And you don't slip up  
Many men try to come  
And put a bomb on your spot

No, you better hit the bullseye

Or you gon' end up in a ghost town  
Ghost town  
You end up living in a ghost town  
Ghost town  
You end up living in a ghost town  
Ghost town  
You end up living in a ghost town  
See your neighbors winning  
But it brings you down  
Try to chase the fame  
You end up burning out  
Why do someone always try to steal my light  
Learning from vultures, protect my own  
Dream it, end up chasing it my whole life  
Feel the joy bring the tears  
Down my brown eyes  
Mamas gonna always say a prayer for me  
Pray I make it out tonight

Living in a ghost town  
Gotta make it on my own (Gotta make it on my own)  
Living in a ghost town  
Gotta find a new meaning (Gotta find a new meaning)  
Living in a ghost town  
Gotta make it alone  
Living in a ghost town  
The good and bad on my own
