

Only

Wurld

Things don't need be too complicated
Come unwind all of your frustrations
You know me I got all the patience
Our minds be our limitation, oh

Only only only only, only you
Only only only only, only you
Only only only only, only you
Only only only only, only you

With you it never gets complicated
So I came with all the essentials
Take it up one notch test the limit
It takes two to get comfortable
You hate being vulnerable
But let me embrace every part of you and give you all the best
of me, oh

Only only only only, only you
Only only only only, only you
Only only only only, only you
Only only only only, only you

Things don't need be too complicated
Come unwind all of your frustrations

Only only only only, only you
Only only only only, only you
Only only only only, only you
Only only only only, only you
