

# Paranoid

Wurld

I give my heart to you  
You know that I'll ride for you  
Give all I got to keep you safe  
And it's all by design  
Keep me under your surveillance  
Say your love is something strange  
You swear to never fall in love again  
But I got something new for you  
Why do lovers run away?  
Many times, I've been myself  
Abidin' your petty rules  
So you and I can go a long way

All I can do is give you the best of me  
I know you've heard these lies before  
But my love is true  
All I can do is give you the best of me  
But I know you get so paranoid  
I know this is true

I give my heart to you  
I'm down to dirty ride with you  
Just pick me up, I'll be your burnin' face  
You screamin' no one ever loves you tight  
But I want you the way you are  
So you don't need to play love games  
Takes you and I forever young  
Livin' wild for twenty-one  
Tonight the night, my love won't fade  
You say you've been right down this road before  
And nothing good comes after all  
Well, even now the good ones change

All I can do is give you the best of me  
I know you've heard these lies before  
But my love is true  
All I can do is give you the best of me  
But I know you get so paranoid  
I know this is true

I'll break all the rules for you  
You know that I will fight for you  
There's nothing I wouldn't do to be with you  
I'll break all the rules for you  
And even make the news for you  
There's nothing I wouldn't do to be with you

All I can do is give you the best of me  
I know you've heard these lies before  
But my love is true  
All I can do is give you the best of me  
But I know you get so paranoid  
I know this is true

I'll break all the rules for you  
And even make the news for you  
There's nothing I wouldn't do to be with you

I'll break all the rules for you  
And even make the news for you  
There's nothing I wouldn't do to be with you

(You were made for me) I was made for you  
(And I was made for you) Whatever you want  
Whatever you need  
(No one can make me feel the way you do) I'll be, just say  
Say you'll never leave and I'll be right here  
(Love, we were born to give you everything)  
With you  
(Don't turn away) For you  
(Don't look away) Whenever  
(Don't walk away) Forever  
(I was made for you)  
(You were made for me)  
(We were meant to be as one)  
(Forever yours, forever yours, forever yours)  
(Forever yours, forever yours, I'll be)  
(I was made for you)  
(And you were made for me)  
(Don't never, never, ever, ever leave from me)
