She no dey press
She tell me baby she no want stress
She got her own so she no dey press
Say na my vibe wey dey make am wet
Me I no dey press
Give me your loving don't want no stress
Say many men dem dey try to press
Na only me wey dey make her press

Oh na na na
Baby no make me go all la la out
Press on your buttons all na na na night
I won't press your feelings
I won't cross those lines yeah
I know so many will tell you lies
Lie on my past so that we can divide
It's no lie for you, I go all la la out
For you, anything I go all la la out yeah
And I don't wanna waste your time
Catching my high with your vibe
Giving me the signs, I'm looking in your eyes
Love it when you smile and giving me that whine
Eyayiyahiyai don't like
Wasting my time pushing on the wrong tribe
Many evil things wey my eyes don see
Only thing I need is the way you make me feel yeah

She no dey press
She tell me baby she no want stress
She got her own so she no dey press
Say na my vibe wey dey make am wet
