

## SAME AS YOU

Wurld

Lucky Charms, all the girls call me bae  
They say my name, say my name, say my name  
I met your girl and she knows my name  
I met her friends and they know my name  
Lucky charms, love her once, change the game  
She say I run through her mind everyday  
I'm the man, yeah, she knows my name  
I'm the man that she calls at 3:00 in the morning  
She tells me you approve this  
Oh, I think it's crazy  
But at least you know me

Cause I love her the same  
I love her the same as you  
Say she loves the same  
She loves me the same as you

How many times, how many nights  
Before you realize that I may have crossed the line?  
How many times, how many nights  
Before you decide that you need me outside?

I know I'm getting emotional  
This part is unintentional  
Don't wanna make it personal  
I'm there at night when she calls me  
Oh I think she loves me  
It's obvious I want this  
Think we're all just crazy, yeah

Cause I love her the same  
I love her the same as you  
Say she loves the same  
She loves me the same as you

I'm not sure I could survive  
If you decide to end this now  
I'll do just fine if she comes around  
Only half the time
