

Oh you shine whenever

Shine on everything

If I got it, then she got it 'cause I put her on everything, ooh
Never leave my side and we ride on everything, ooh

Whenever I shine, you shine on everything (When I shine you shine, yeah)

I want you right next to me
Whenever my body dey ginger, I want you right next to me
(I want your right next me)
Baby, come close to me
I want you all over my body, I want you dey close to me
(I want you dey close to me)

I need you all alone (All alone, all alone)
On a private island all alone (All alone, all alone)
She never leave my side when I feel low (When I feel low, when I feel low)
And everything I got is yours to blow, ooh, ooh, ooh

Shine on everything
Man of my word, yeah, I put it on everything

You are everything you say you are
And you really got me shining like a shooting star

Say, they in it for the long end but they never are
I like it how you gang, gang, gang
Put it on me like a diamond ring
And it's so key how you keep it low-key
Pull it out and then it's bang, bang, bang

I need you all alone (All alone, all alone)
On a private island all alone (All alone, all alone)
She never leave my side when I feel low (When I feel low, when I feel low)
And everything I got is yours to blow, ooh, ooh, ooh

Shine on everything
Man of my word, yeah, I put it on everything
If I got it, then she got it 'cause I put her on everything, ooh
Never leave my side and we ride on everything, ooh
Whenever I shine, you shine on everything (When I shine you shine, yeah)
Whenever I shine, you shine on everything (When I shine you shine, yeah)
Ooh
