Don't be afraid just grab what you like
When you're on me

Tonight no be play play
Run it anywhere no dey fear fear
I want everyday no dey tey tey
The way you work it work it down
For you I got the stamina
Me come here ready like a criminal
No try to do me like a foreigner
Cos Imma treat you the right way
No do you no rough play

All I needs is one love
One love
Can I be your one love
