

Burning Bridges

Wyatt Flores

Turns out all your friends were fake
Some were real but you pushed them away
And if you don't call your family
They won't be family anymore
You can try and cry and somehow wish to get by
But it won't be the way it was before

And now you're standing in the cold and the whiskey's getting low
Turns out everyone you know left a long time ago
And now you're stranded in the snow and the doors are locked and closed
Burning bridges as you go leaves a lot of dead end roads

I got caught up in my world
Gave my time to a couple girls and no one else
Spend my money getting high
Only loved one at a time
Didn't know I needed help

And now I'm standing in the cold and the whiskey's getting low
Turns out everyone I know left a long time ago
And now I'm stranded in the snow and the doors are locked and closed
Burning bridges as I go leaves a lot of dead end roads

You never get out
If you don't turn your life around
You never get out
If you don't turn your life around
You never get out
If you burn all those bridges down
You never get out
If you burn all those bridges down

And now I'm standing in the cold and the whiskey's getting low
Turns out everyone I know left a long time ago
And now I'm stranded in the snow and the doors are locked and closed
Burning bridges as I go leaves a lot of dead end roads
Burning bridges as I go
