

# Chance On Me

Wyatt Flores

I know the past has been rough  
All the tail lights and dust  
Broken-hearted memories  
I've left you with no trust  
Have you cried your last tear?  
I know it's been a hell of a year  
Can you give love another chance?  
I'm not the man you fear

But if there's not a love song  
That'd make you sing along  
I'd write you in a thousand lines  
Until I'm on your mind  
If my words could break your walls  
In my arms, would you fall?  
Can you take a chance on me?

I just wanna be yours  
Put a new rhythm in your heart  
Honey, I've never been more sure  
You've given my life a brand-new start  
So throw your doubts away  
And close those pretty green eyes  
Darlin', I'm here to stay  
I'm not here to waste your time

But if there's not a love song  
That'd make you sing along  
I'd write you in a thousand lines  
Until I'm on your mind  
If my words could break your walls  
In my arms, would you fall?  
Can you take a chance on me?

I'd sell my soul for your melody  
You take the lead and I'll take care of the harmony  
You just wait and see  
If you take a chance

'Cause if there's not a love song  
That'd make you sing along  
I'd write you in a thousand lines  
Until I'm on your mind  
Let my words break your walls  
In my arms, you will fall  
Can you take a chance on me?  
Can you take a chance?
