

# Falling Sideways

Wyatt Flores

Makin' secrets, heavy breathing  
Always find me at my weakest  
It was backwards when you called first

I should've known better when I went out  
To meet you at the bar all by myself  
Swore I wouldn't do this again  
'Cause drinkin' never let us just be friends

Don't tell me what we did last night, it's a long way down when  
you're rollin' on this high  
All I know is you didn't wanna go, and we ended up naked with a  
bottle by the bedside  
I guess demons catch up with time  
I'm falling sideways, digging each other's graves, it's a long  
way down when you're rollin' on this high

Why do the best you ever had always pull you back to who you we  
re then?  
He was long time comin'  
And there ain't no use runnin'  
Started with a hello  
Now she's takin' off her halo

Don't tell me what we did last night, it's a long way down when  
you're rollin' on this high  
All I know is you didn't wanna go, and we ended up naked with a  
bottle on the bedside  
I guess demons catch up with time  
Falling sideways, digging each other's graves, it's a long way  
down when you're rollin' on this high

Don't tell me what we did last night, it's a long way down when  
you're rollin' on this high  
All I know is you didn't wanna go, but we ended up naked with a  
bottle by the bedside  
I guess demons catch up with time  
Falling sideways, digging each other's graves, it's a long way  
down when you're rollin' on this high

When you're rollin' on this high  
When you're rollin' on this high
