

Life Matters

Wyclef Jean

Your life matters
His life matters
Her life matters
Then black life matters

Police life matters
The judge life matters
If human rights matter
Then black lives matter

We need to go back to the truth
Only love can take us back
We need to go back to the truth
Only love can take us back

Harambe life matters
The earth, yes, matters
The universe is shattered
If we all didn't matter

The kids' life matters
Fallen soldiers matter
If human rights matter
Then black life matters

We need to go back to the truth
Only love can take us back
We need to go back to the truth
Only love can take us back

La la la la la la
La la la la la la
La la la la la la
La la la la la la
La la la la la la
La la la la la la
(All we need is love) la la la la la la
La la la la la la (all we need is, all we need is love)

Your life matters
His life matters
Her life matters
Then black life matters
