

Schools of Eyes

Wye Oak

Do I sleep
The thought is keeping me awake
High and free
And knowing keeps me in my place
An invisible tether
Is somehow stronger
But my hand is mine
Even when you hold it

When there is time
Then I will answer "see we have forgot"
A hundred days
And I'll remember "see we have forgot"
You hold a sign
That seems forever "see we have forgot"
We are amazed
And I will answer "see we have forgot"

So show the spark
Can we be wise
Do we have the essence
I see schools of eyes
Where there should be faces

When there is time
Then I will answer "see we have forgot"
A hundred days
And I'll remember "see we have forgot"
You hold a sign
That seems forever "see we have forgot"
You are amazed
And I will answer "see we have forgot"

When there is time
Then I will answer "see we have forgot"
A hundred days
And I'll remember "see we have forgot"
You hold a sign
That seems forever "see we have forgot"
We are amazed
And I'll remember "see we have forgot"

When there is time
Then I will answer "see we have forgot"
A hundred days
And I'll remember "see we have forgot"
You hold a sign
That seems forever "see we have forgot"
We are amazed
And I will answer "see we have forgot"

To mind the time
And I'll remember "see we have forgot"
To spite the days
We will remember "see we have forgot"
To hold the signs
That seems forever "see we have forgot"

To be amazed
And I will answer "see we have forgot"
