

## Warning

Wye Oak

If the end will come it will be night  
All the life we have is from the daylight  
And of all the planets god is one  
Hidden in the burning of the sun  
And I am counting down the years  
The warnings have begun to appear  
I wait and live as though I will die  
I am alive, how can I?

The only world I've ever known  
Has been overrun and overgrown  
And the saddest ending to describe  
Is to never bring this world a new life  
And I am counting down the days  
The people stop their fighting to pray  
I wait and live as though I cannot die  
I am alive, how can I?

I sit and wonder asking why  
I have seen the world lay down to die  
But the only hell I'll ever know  
Is where you may go and I may not go  
I am counting down the hours  
And on my knees amazed at the power  
I have to live as though I will die  
I am alive, how can I?
