

Being Gone

Wynette Tammy

Never thought that you'd be leavin'
You were here one day the next day you were gone
I'll admit that sometimes it's been hard
For me to face the lonely nights alone
Wish you could see the baby now
She looks more like you ev'ryday
You're bein' here gave so much more
Than you're bein' gone could ever take away

Other arms have reached out for me
But I could never give in to their touch
By now I should be gettin' over you
But I still love you much too much
Your gold ring's on my finger
And I swear I'll wear it til my dyin' day
You're bein' here gave so much more
Than you're bein' gone could ever take away

Oh on a Sunday afternoon like this
I really miss the way it used to be
No matter where you are today
I know somehow your thoughts will turn to me
Today I'll come to see you
Place a spray of roses where you lay
You're bein' here gave so much more
Than you're bein' gone could ever take away

You're bein' here gave so much more
Than you're bein' gone could ever take away
