

## Cold Lonely Feeling

Wynette Tammy

Who could've told me that you've been with her one more time  
And if you only knew boy you'd give them a piece of your mind  
You can't think of anyone who would stoop quiet so low  
Though you're tryin'  
But nobody told me but a cold lonely feelin'  
Like dyin' that came over me

Just a cold lonely feelin' like dyin' that came from within  
And if you thought what I didn't know wouldn't hurt me then thi  
nk again  
You'll find it easy to convince me you've done no great sin  
But as much as I love you within in a hundred miles of you  
Is closer than she should have been

And love knows the story  
But sometimes the mind won't believe  
And love can see so much that even the eyes never see  
No one could convince me you were somewhere that you shouldn't  
be  
Nobody told me but a cold lonely feelin'  
Like dyin' that came over me

No nobody told me but a cold lonely feelin'  
Like dyin' that came over me
