

Come With Me

Wynette Tammy

If you're in a valley with a troubled mind
I'm a mountain come on and climb
Cause you look too good to be so down
It don't take much girl to turn it all around

Come with me come with me
The feelin's free just come with me
Your head on a cloud mighty high
Say hello sun as we sail by

I'll take you where you've never been before
Once we're there you'll cry for more
So if it's dark in your world come walk in mine
My love's a light babe it's on all the time

Come with me come with me
The feelin's free just come with me
Your head on a cloud mighty high
Say hello sun as we sail by

Come with me come with me
The feelin's free just come with me
Your head on a cloud mighty high
Say hello sun as we sail by
