

Dallas

Wynette Tammy

Dallas I'll be coming home it won't be very long
Don't let them close your roads till I get back
My daddy thinks I've gone for good but mama she knows better
Dallas I'll be coming home to you

You couldn't understand that night why I packed up and left you
You knew I wouldn't find it way out here
And those city lights of Tulsa make me lonesome for you Dallas
Dallas I'll be coming home to you

Please take care of my baby now you know I love him Dallas
I wouldn't leave him with anyone but you
The plane leaves in the morning but I'll be walking back to Dallas
Dallas I'll be coming home to you

Please take care of my baby now you know I love him Dallas
I wouldn't leave him with anyone but you
The plane leaves in the morning but I'll be walking back to Dallas
Dallas I'll be coming home to you

Dallas I'll be coming home to you
