

Every Now and Then

Wynette Tammy

Every now and then a blind squirrel finds an acorn
Every now and then a cripple sparrow takes to the wind
Lately that's what keeps me goin' I find comfort just in knowin'
,

That it happens every now and then

Every now and then the sun shines when it's rainin'
Every now and then a down and outer finds a true friend
As sure as there's a Lord above me I know someday someone will
love me
Thank God it happens every now and then

Every now and then a seeker finds the answer
Every now and then a loser learns how to win
I believe that some sweet evenin' I'll find someone to believe
in
I know it happens every now and then
Thank God it happens every now and then
