I Can Love You

Wynette Tammy

I can't stop the world from turnin'
Or the desert storms from burnin'
But I can love you that's easy to do
I can't stop the rivers flowin'
Or stop the wind from blowin'
But I can love you that's easy to do

I can't be a movie queen
Or have done a big love scene
But I can love you that's easy to do
There are things that I can't do
Even if I wanted to
But I can love you that's easy to do

I can tell you love stories that are true
And have a happy home for just us two
I'll keep heartaches pushed aside
You won't ever be denied
And I can love you that's easy to do
I can love you that's easy to do
