

I Can Still Believe in You

Wynette Tammy

The weatherman promised me a bright sunshiny day
I know he didn't mean to lie but it's raining just the same
Get rich schemes go play big dreams that only left me poor
Who can you believe in anymore

Thank God that I can still believe in you
Thank God that I've got love that I can hold on to
And through the trials of time I know your love is true
And I thank God that I can still believe in you

Thank God that I can still believe in you
Thank God that I've got love that I can hold on to
And through the trials of time I know your love is true
And I thank God that I can still believe in you
