

I Just Heard a Heart Break (And I'm So Afraid It's Mine)

Wynette Tammy

I felt you slip from the covers of our big four poster bed
I heard you dial the telephone saw you shake your worried head
I watched you dress in total darkness you've never done that before

Daylight seemed so far away as you gently closed the door

I saw the light beneath the door as you tiptoed to the car
Heard you leave so gently oh you surely won't go far
I stayed awake and watch the day break then I waited through the day

Oh you'll be back I know you will you've never stayed away

Or have I just heard a heart break what was that awful sound
Does it seem like crashin' thunder or just a teardrop fallin' down

When it happens can you hear it or just feel it deep inside
I think I just heard a heart break and I'm so afraid it's mine
I think I just heard a heart break and I'm so afraid it's mine
