

I'll Still Be Loving You This Much

Wynette Tammy

The ring you proudly wear on your left hand
Says you're my man and I love you
Years we spent together heart to heart
Never apart just me and you

See our children playin' in the yard
They're just a part of my love for you
And the house we bought and made into a home
Where our love has grown darlin' I promise you

When the Great Pacific turns to a field of clover
And the Grand Canyon fills up with dust
When the moon turns to blood and Jesus comes again
I'll still be lovin' you this much
I'll still be lovin' you this much

When my golden hair is turned to silver gray
Sweetheart I'll pray to be holding you
When Gabrielle plays his final song to take us home
I'll be lovin' you

When the Great Pacific turns to a field of clover
And the Grand Canyon fills up with dust
When the moon turns to blood and Jesus comes again
I'll still be lovin' you this much
I'll still be lovin' you this much
