

I'm Turning You Loose

Wynette Tammy

I tried to hold on baby
To your ever changing fan
You keep laying these heartaches on me
That's something I don't understand

My eyes stay red from all this crying
I'm half eat up with these blues
We're no good for each other baby
Here's your coat I'm turning you loose

You keep putting me through these changes
I keep coming out the same
It don't matter how I do it
Loving you is just about the pain

If our love was a headline
Don't you know it'd be bad news
Today I'm all fresh out of trying
Here's your coat I'm turning you loose

I'm turning you loose letting you go
There ain't no use in just hanging on
We lost that feeling baby that's sad
We stood by and didn't even try
And let a good love go bad

If our love was a headline
Don't you know it'd be bad news
Today I'm all fresh out of trying
Here's your hat I'm turning you loose

I'm turning you loose letting you go
There ain't no use in just hanging on
We lost that feeling baby that's sad
We stood by and didn't even try
And let a good love go bad

If our love was a headline
Don't you know it'd be bad news
Today I'm all fresh out of trying
Here's your coat I'm turning you loose
Today I'm all fresh out of trying
Here's your coat I'm turning you loose
