

## If I Didn't Have a Heart

Wynette Tammy

I could stand out in the rain  
Smilin' as you drive out of my life  
I could wave goodbye all day  
And never feel the pain that's cloudin' up my mind  
I could hear the saddest song bout a love gone wrong and never f  
all apart  
It would be all so easy if I didn't have a heart

I could see you in the arms of someone new  
And know I'd never have to worry  
I could turn my back and walk away  
If you walked in right now and said you're sorry  
I could pack away the memories  
Forget about the past and make a brand new start  
It would all be so easy if I didn't have a heart

I could tuck her into bed  
Bow my head and never see your face while she prays  
Give her a goodnight kiss  
And never shed a tear when she cries out your name  
(Daddy daddy)  
And it wouldn't hurt at all  
When her little friends all ask me where you are  
It would all be so easy if I didn't have a heart

I could see you in the arms of someone new  
And know I'd never have to worry  
I could turn my back and walk away  
If you walked in right now and said you're sorry  
I could pack away the memories  
Forget about the past and make a brand new start  
It would all be so easy if I didn't have a heart  
It would all be so easy if I didn't have a heart
