If This Is Our Last Time

Wynette Tammy

Even though the night is early there's a fire that whispers hur ry Darling please turn off the lights and lock the door Come lay down here beside me tell me that I'm soft and pretty And love me like you never have before If this is our last time make it last me for a lifetime Don't hold back the love you feel inside why should passion be ashamed If this is our last time make it last me for a lifetime Leave me with enough of sunshine to carry me through the rain In the morning you'll be leaving but tonight there'll be no gri eving I'll have lots of time to cry when you're gone Let's not waste one precious moment take all of me I'm still yo ur woman And love me up until the break of dawn If this is our last time make it last me for a lifetime Don't hold back the love you feel inside why should passion be ashamed

If this is our last time make it last me for a lifetime Leave me with enough of sunshine to carry me through the rain
