

## If You Were the Friend

Wynette Tammy

I watch your eyes as you watch him walk in the room  
And I can see you're still in love  
It's hurtin' me that everybody knows but you  
Who he sees and what he does

If you were the friend and I was the fool  
Would you tell me what I'm not telling you  
Would you let me live a lie or let me know the truth  
If you were the friend and I was the fool

He takes your hand and tells you you're the only dream  
That he sees when he lays down  
But I've been there when he was chasing different dreams  
Lord it's gonna hurt when you find out

If you were the friend and I was the fool  
Would you tell me what I'm not telling you  
Would you let me live a lie or let me know the truth  
If you were the friend and I was the fool
