

## Love Doesn't Always Come (On the Night It's Needed)

Wynette Tammy

I just saw the sun go down behind a purple sky  
Watched the daylight slowly fade and die  
Saw two lovers close their door and turn out their bedroom light  
Wishin' you were here with me tonight

Picked up a book and tried my best to read it  
But love doesn't always come on the nights you need it

Lyin' here I feel so lost in this big king-size bed  
Reached down and ran my fingers cross the satin spread  
Thought of how it felt to lay my head upon your chest  
Lord I've never felt such loneliness

Nights like this I feel I'm bein' cheated  
But love doesn't always come on the nights you need it

On the nights I need you so what do I do where do I go  
I need you to make me feel completed  
But love doesn't always come on the nights you need it  
No love doesn't always come on the nights you need it
