

Loving You, I Do

Wynette Tammy

Meeting you was a miracle like thunder on a clear blue day
Like the sun comin' up at midnight and a daylight Milky Way
And knowin' you just amazes me but then I kinda thought you would

I do believe you are my Moon I would have guessed you could

Wanting you is always there like a rainbow after the rain
For the joy when you call me mommy thank God something's never changed

And needing you is a stormy night when the lightin' keeps me awake

And sounds outside are magnified with ev'ry breath I take

Missin' you is a wishing well where pennies make dreams come true

I've wished I wouldn't miss you with every single coin I threw
And lovin' you well that's home-made ice-cream picnics and lollipops too

And lovin' you is cotton candy and lovin' you I do
