

Mama, Your Little Girl Fell

Wynette Tammy

It seems like only yesterday that she sat upon my knee
But last night she sat me down and had a talk with me

Now mama don't get excited and don't you be alarmed
It's true I slipped and fell today but only in his arms
And then I started cryin' but he kissed all the tears away
Mama your little girl she's gone she fell in love today

And then she said
Now mama we're not playin' games for this little girl are gone
He told me that he loves me and I've known it all along
He slipped a ring on my finger and I accepted right away
Mama your little girl she's gone she fell in love today

And I told her
Honey it's a dream come true for me I've been prayin' for so long
For that someone to come along and make you his very own
But now honey now that you've found him
Well you've gotta love him all the way
I know my little girl is gone she fell in love today
