

## Still Around

Wynette Tammy

To make you stay I'll never try  
And when you go I will not cry  
But for a time I might be found somewhere live still around  
But may you find a love that's true  
Someone to love and cherish you  
And if you love your whole life through  
And may you love as I love you  
But if you'll ever feel alone  
With no true love to call your own  
And if you'll need a place to hide  
These arms of mine are open wide  
And if a troubled love brings you pain  
My love is all like summer rain  
Always remember I'll be found still around

To make you stay I'll never try  
And when you go I will not cry  
But for a time I might be found somewhere live still around  
But may you find a love that's true  
Someone to love and cherish you  
And if you love your whole life through  
And may you love as I love you  
But if you'll ever feel alone  
With no true love to call your own  
And if you'll need a place to hide  
These arms of mine are open wide  
And if a troubled love brings you pain  
My love is all like summer rain  
Always remember I'll be found still around
