

Still Around

Wynette Tammy

To make you stay I'll never try
And when you go I will not cry
But for a time I might be found somewhere live still around
But may you find a love that's true
Someone to love and cherish you
And if you love your whole life through
And may you love as I love you
But if you'll ever feel alone
With no true love to call your own
And if you'll need a place to hide
These arms of mine are open wide
And if a troubled love brings you pain
My love is all like summer rain
Always remember I'll be found still around

To make you stay I'll never try
And when you go I will not cry
But for a time I might be found somewhere live still around
But may you find a love that's true
Someone to love and cherish you
And if you love your whole life through
And may you love as I love you
But if you'll ever feel alone
With no true love to call your own
And if you'll need a place to hide
These arms of mine are open wide
And if a troubled love brings you pain
My love is all like summer rain
Always remember I'll be found still around
