

## That's When I Feel It

Wynette Tammy

Fanny's washing the clothes, I know, think I'll give Mary Sue a  
call  
I've cleaned the house there's nothing left to do  
Gonna be another lonely night 'cause he's not here to hold me t  
ight  
The kids are on bed, my day is through

Sometimes I wonder if he still loves me, when it's come  
He never fails to change my mind the minute, he gets home  
That's when I feel it, his love the most  
That's when he holds me, holds me so close  
That's when I know it because he shows it, how much he loves me

Sometimes I wonder [unverified]  
That's when I feel it [unverified]
