

The World's Most Broken Heart

Wynette Tammy

Step right this way here's our main attraction
Direct your eyes to the center of the room
She walks she talks she cries real tears
Now the show's about to start
Now presenting the world's most broken heart

See her cry when she remembers
That her love's gone bad
Watch her body ache as she recalls
All the sleepless nights she's had
She's the greatest wonder of the world
And her soul's been torn apart
Now presenting the world's most broken heart

She's not a fake look close you'll see no mirrors
And you'll agree with me that ev'ry tear is real
Her dreams are shattered ev'ry show
Now the show's about to start
Now presenting the world's most broken heart
Now presenting the world's most broken heart
