

## Touching Love

Wynette Tammy

There's not an hour when you're gone that I don't miss you  
And I can't wait for each day to end  
And I've spent so much time watchin' the driveway  
That I almost burned our dinner once again

Lights down low we both know don't we baby  
It won't be long till we'll be touchin' love again  
We sure must be living close to heaven  
The love we share is such a precious thing

And God has blessed our home with our babies  
Now one's asleep and one's in school and one just turned thirte  
en

Lights down low we both know don't we baby  
It won't be long till we'll be touchin' love again  
It won't be long till we'll be touchin' love again
