

You Hurt the Love Right Out of Me

Wynette Tammy

There was a time I'd have gone all the way with you
And be whatever you said I should be
But now it's over and I've no reason now to stay with you
Cause you hurt the love right out of me

Yes you hurt the love right out of me
Left no feelin' or even yearn for memories
I thought our love would never end but my heart said think again
When you finally hurt the love right out of me

Yes you hurt the love right out of me
Left no feelin' or even yearn for memories
I thought our love would never end but my heart said think again
When you finally hurt the love right out of me
When you finally hurt the love right out of me
