

You Never Knew

Wynette Tammy

I fell in love the day we met but you never knew
You thought that I was just a friend cause you never knew

I used to look at you but I couldn't touch
But now I'm touchin' you tonight
I used to be the only one who was filled with desire
But tonight you're on fire

You never knew how much I needed you to feel
This crazy way I feel for you
Out of the blue you think this love has come to you
But it's been long overdue
You never knew

I used to look at you but I couldn't touch
But now I'm touchin' you tonight
I used to be the only one who was filled with desire
But tonight you're on fire

You never knew how much I needed you to feel
This crazy way I feel for you
Out of the blue you think this love has come to you
But it's been long overdue
You never knew
You never knew
